THE LABOUR GOVERNMENT IS OUR ENEMY

ALL GOVERNMENTS ARE THE ENEMY!

JOIN THE SOLIDARITY FEDERATION

The Solidarity Federation is an organisation of anarcho-syndicalists which seeks to destroy the state and capitalism through social revolution, and to replace them with workers' self-management, solidarity, mutual aid and co-operation.

We believe that change can only come about through direct action by the workers themselves. We aim for the creation of revolutionary unions on an industry-wide basis – one industry, one union – for day-to-day issues and to prepare for workers' control.

The class struggle is international, and we oppose racism, nationalism and patriotism in all their forms. We are affiliated to the International Workers' Association.
