Don’t work!

June 30th

Government cuts are attacking all of us. On June 30th, workers all over the country will walk out of work to try to stop them.

Going on strike is one of the most powerful weapons we have. We all need to be involved - even if we’re not in a union, this is our fight too.

On June 30th:
• Take part in the strike. If in doubt, call in sick.
• Join your local picket lines.
• Organise. It’s an opportunity to link up with other workers.

The struggle against cuts won’t end on June 30th but let’s make the most of this chance to build our strength.
