

# Don't work !

Not for flyposting

## JUNE 30th

Government cuts are attacking all of us. On June 30th, workers will walk out of work to try to stop them.

Trade Unions include NUT, PCS, UCU & ATL... The strike is one of the most powerful weapons we have.

We all need to be involved - even if you're not in a union, this is our fight too.

On June 30th:

- Take part in the strike. If in doubt, call in sick.
- Join your local picket lines.
- Organise. It's an opportunity to link up with other workers.

The struggle against cuts won't end on June 30th but let's make the most of this chance to build our strength.
