

! STOP REPRESSION IN SPAIN !

On December 16th in Barcelona, 11 anarchists were detained in what is known as "Operation Pandora".

All 11 detainees are anarchist activists. 4 of them were released on December 18. One of them is a member of the CNT union from Sabadell and is still imprisoned.

His lawyer says they are being held because they are organised. They haven't been accused of anything more than being active anarchists that spread and publish our ideas and fight for them.

It's clear that this operation took place only to persecute and criminalise the libertarian movement and to instill fear in the rest of the population so they don't fight against this system's injustice.

We ask for solidarity. All that are able, please hold demonstrations or protest meetings to demand the detainees' freedom and against Operation Pandora.
